DECLARATION OF DAVID C. LEE

I, David C. Lee, declare as follows:

- 1. I am an attorney at law admitted to practice in this Court, and a partner of Nossaman LLP, counsel of record in this action for Defendant RTZ Associates, Inc. ("RTZ"). I make this declaration in support of RTZ's Opposition to Plaintiff Intus Care, Inc.'s ("Intus") Motion for Partial Summary Judgment. I have personal knowledge of the facts set forth in this declaration and if called as a witness, I could and would completely testify to those facts.
- 2. On October 29, 2024, RTZ propounded Interrogatories, Set One on Intus. A true and correct copy of RTZ's Interrogatories, Set One, is attached hereto as **Exhibit 1**.
- 3. On December 16, 2024, Intus served its responses to RTZ's Interrogatories, Set One. A true and correct copy of Intus's responses to RTZ's Interrogatories, Set One, is attached hereto as **Exhibit 2**.
- 4. Intus's responses to RTZ's Interrogatories, Set One, included and attached an Excel spreadsheet titled, "2024-12-16 Appendix A to Plf's Responses to Interrogatories Set 1" that contains approximately 9,896 rows of log-in information. Intus's Interrogatory responses describe Appendix A as follows: "Dates the login credential was used to access PACECare: Please see column B of the spreadsheet labeled Appendix A, served concurrently with these responses, for the dates that the login credential was used to access PACECare." A true and correct copy of excerpted portions of Appendix A reflecting Intus's access to PACECare on dates after March 15, 2024 is attached hereto as **Exhibit 3**. Attached hereto as **Exhibit 4** is a true and correct copy of the same Appendix exhibit attached as Exhibit 3, but converting the Excel spreadsheet format into a PDF format.
- 5. On May 24, 2024, RTZ served its Requests for Production of Documents, Set One on Intus, seeking among other materials, Intus's automated scripts. A true and correct copy of the Requests without exhibits is attached hereto as **Exhibit 5**.
- 6. In response to RTZ's Request for Production of Documents, Intus served versions of its native automated scripts. True and correct printed copies of the automated scripts

ATTORNEYS AT LAW

TO DEFENDANT RTZ ASSOCIATES, INC. AND THEIR ATTORNEYS OF RECORD:

Plaintiff Intus Care, Inc. ("Intus") hereby responds to Defendant RTZ Associates, Inc.'s ("RTZ") first set of Interrogatories (the "Interrogatories") as follows:

PRELIMINARY STATEMENT

Intus has not completed its investigation of the facts related to this case, has not fully completed its discovery in this action, and has not completed its preparation for trial. All of the responses contained herein are based only on such information and documents that are presently available and specifically known to Intus, and Intus discloses only those facts of which it is presently aware. These responses are based upon the current state of Intus's pre-trial preparation and the documents that it has reviewed to date. Intus anticipates that its continuing discovery and investigation will reveal facts and/or documents not presently known to it, or facts and/or documents whose significance is not presently known to it, upon which Intus may rely at trial. Thus, the responses contained herein are given without prejudice to Intus's right to augment these responses at a later date.

Each response is given subject to all appropriate objections (including, but not limited to, objections concerning competency, materiality, propriety, authenticity, and admissibility), which would require the exclusion of any statement contained or referenced herein, if it were made or presented by a witness present and testifying in Court. All such objections and grounds are therefore reserved and may be interposed at the time of trial.

Except for facts explicitly admitted herein, no admission of any nature whatsoever is to be implied or inferred. All responses must be construed as given on the basis of present recollection. Nothing herein should be construed as an admission by Intus regarding the admissibility or relevance of any fact, or the relevance, truth, or accuracy of any characterization or statement of any kind contained in RTZ's Interrogatories.

GENERAL OBJECTIONS

- Intus objects to the Interrogatories to the extent that they seek documents that are 1. not relevant and/or not reasonably calculated to lead to the discovery of admissible evidence.
- 2. Intus objects to each and every Interrogatory to the extent it seeks documents or information protected by the attorney-client privilege, attorney work-product doctrine, and/or any other applicable privilege, immunity, or other limitation on discovery, including information protected by the right to privacy (including, but not limited to, under HIPAA and similar state law). Intus will not undertake to produce such privileged or protected documents or information, and nothing herein is intended as, or shall be deemed to be, a waiver of any such privileges and protections. The production of any such documents and/or information is inadvertent and shall not constitute a waiver of any privilege or protection.
- 3. Intus submits these responses subject to all objections ordinarily available if such statements are offered in court. All such objections are hereby expressly reserved and may be interposed at the time of trial or at any other time. No response or objection to any of the Interrogatories herein should be taken as an admission by Intus of the existence of any fact set forth or assumed by the Interrogatories, or that such response or objection constitutes admissible evidence. No response to any of the Interrogatories is intended to be, nor shall any response be construed as, a waiver by Intus of all or any part of any objection to any Interrogatory.
- 4. Intus has made an effort to respond to each of the Interrogatories as Intus understands and interprets it. Discovery in this action is continuing, and Intus has not yet completed its factual investigation. Accordingly, without assuming any obligation to do so, and without waiving any objection, Intus reserves the right to amend or supplement any response as additional facts are discovered or ascertained. The following responses are based upon facts which Intus has ascertained as of the date of the response, and does not preclude Intus from later relying upon facts discovered pursuant to further investigation or discovery which may be conducted after the date of this response.

- 5. Intus objects to the Interrogatories on the grounds and to the extent that they call for private (including, but not limited to, under HIPAA and similar state law) and/or confidential, proprietary, business, trade-secret, financial and/or commercially sensitive information. Moreover, to the extent any confidential, personal, business, financial, proprietary, private, commercially sensitive, or trade-secret information were to be produced, information would only be made available following the entry of the protective order in this matter, including an "attorneys' eyes only" protective order.

- 8. Intus objects to the Interrogatories on the grounds and to the extent that they are vague, ambiguous, unintelligible, uncertain, overly broad, duplicative, unreasonably burdensome, harassing, and/or not properly limited as to time or scope.
- 9. Intus objects to the Interrogatories on the grounds and to the extent that they do not specify the sought information with reasonable particularity.
- 10. Intus objects to the Interrogatories on the grounds and to the extent that they purport to impose obligations on Intus beyond those permitted by the Federal Rules of Civil Procedure or Local Rules.
- 11. Intus objects to the Interrogatories on the grounds and to the extent that they seek the disclosure of documents or information already in RTZ's possession or equally available to RTZ.
- 12. Intus objects to the Interrogatories on the grounds and to the extent that they seek the disclosure of documents or information in the possession, custody or control of third parties or other parties to this action.
- 13. Intus objects to the Interrogatories on the grounds and to the extent that they are based on false premises and assume facts that do not exist.

Propounding Party requests that Responding Party make these documents available within thirty (30) days of the date of service of this request at the office of Nossaman LLP, 50 California Street, 34th Floor, San Francisco, California 94111.

DEFINITIONS

For purposes of these Requests for Production of Documents (Set One), the specially defined terms and phrases shall have the following meanings, whether capitalized or not:

- 2. "DOCUMENT(S)" is used in its broad sense to encompass all "documents" and "tangible things" subject to a request for production under FRCP 34, and includes, but is not limited to, all writings, recordings and photographs encompassed by Rule 1001 of the Federal Rules of Evidence, as well as all written, printed, typed, computerized (including e-mail), electronically stored information and electronic media, and any other media from which information can be derived and any other graphic matter of any kind or nature, however produced or reproduced, whether or not sent or received, private or confidential, final or draft, including drafts and duplicates bearing notations or marks not found on the original, or which otherwise differ from the original.

- 3. "RELATING TO" shall mean, in whole or in part, evidencing, alluding to, characterizing, disclosing, constituting, containing, concerning, embodying, reflecting, describing, analyzing, identifying, stating, referring to, dealing with, mentioning, summarizing, or in any way pertaining to.

"COMMUNICATION(S)" is used in a comprehensive sense, and shall mean and include every conceivable manner or means of disclosure, transfer or exchange of oral or written information (in the form of facts, ideas, inquiries or otherwise) between one or more persons or entities including, but not limited to, writings, documents, inter-and intra-office memoranda, correspondence, meetings, conferences, conversations, and/or agreements, whether face-to-face, by telephone, by mail, by telecopier, by telex, by computer or otherwise.
- 5. The terms "and," "and/or," and "or" shall, whenever used herein, be construed either disjunctively or conjunctively as necessary to bring within the scope of these requests all documents that might otherwise be construed to be outside of their scope.
- 6. The plural of any word used in this request for production includes the singular and the singular includes the plural. The masculine gender of any word used herein includes the feminine, and the feminine includes the masculine. The past tense of a word used herein includes the present tense, and the present tense includes the past tense.
- 7. The terms "all" and "each" shall, whenever used herein, be construed as meaning either all or each as necessary to bring within the scope of these requests all documents that might otherwise be construed to be outside their scope. The term "any" shall, whenever used herein, mean "any and all."

INSTRUCTIONS

1. You are requested to produce (a) all requested DOCUMENTS in your possession, custody, or control, as well as all requested DOCUMENTS that are reasonably available to you; and (b) all requested DOCUMENTS in the possession, custody or control of your attorneys, accountants, bookkeepers, or agents, as well as all requested DOCUMENTS that are reasonably available to your attorneys, accountants, bookkeepers, or agents.

- 2. In the event you are able to produce only some of the DOCUMENTS called for in any of the requests below, produce all DOCUMENTS you are able to, identify those DOCUMENTS that you are unable or decline to produce, and state with respect to each such DOCUMENT whether it will not be produced because:
 - (a) You claim it is privileged;
 - (b) It once existed but you can no longer locate it; or
 - (c) It has been destroyed.
- 3. Please identify and list all DOCUMENTS called for by these Requests for Production but withheld on the grounds of attorney-client privilege, attorney work product doctrine, or on any other privilege, and specify in writing the grounds for non-production. Please ensure that all the withheld DOCUMENTS are numbered, held separately, and retained intact pending a ruling by the Court on the claimed privilege. With the exceptions of your communications with your attorneys of record in this ACTION, please identify each withheld DOCUMENT in a privilege log by:
 - (a) Author(s) and recipient(s), including the titles of such persons;
 - (b) Date of the DOCUMENT;
 - (c) Number of pages, attachments and appendices;
 - (d) The name of each person who had access to or custody of the DOCUMENT;
 - (e) Title of the DOCUMENT and general description of the nature and subject matter of the DOCUMENT;
 - (f) Subject matter and nature of privilege claimed; and
 - (g) Present custodian(s) of the DOCUMENT.
- 4. If you cannot produce any given DOCUMENT in full after exercising due diligence to secure the information, so state and produce the DOCUMENT to the greatest extent possible, specifying the reason for your inability to produce the remainder and stating whatever information or knowledge you have concerning the DOCUMENT not produced.

- 8. You are requested to identify which DOCUMENTS or items are being produced in response to which demand.
- 9. If you object to a portion of the request, please produce all DOCUMENTS, including metadata, called for by that portion of the request to which you do not object, state the basis for your objection, and identify those DOCUMENTS that are not being produced because of the objection.
- 10. For each DOCUMENT, a metadata load file shall be produced with a ".DAT" file extension that conforms to industry standard "Concordance" format. The load file shall include all fields identified in Appendix A. The metadata load file (DAT) shall be in UTF-8 encoding format and with the following delimiters: ASCII 254 (QUOTE/FIELD ENCLOSURE), ASCII 20 (FIELD SEPARATOR) and ASCII 174 (NEW LINE).
- 11. Images shall be accompanied by an image load file with a ".OPT" file extension that conforms to industry standard "Opticon" format. The image load file (OPT) shall contain the production number (or "Image Key"), relative file path, document breaks, and page counts.
- 12. DOCUMENTS are to be produced as they are kept in the ordinary course of business. You shall make best efforts to collect and produce ESI without modifying native file metadata. The original folder structure where a DOCUMENT was located should be maintained. If preserving original metadata is not feasible for certain native files, you will so advise the Propounding Party.
- 13. Common system files and application executable files shall be excluded from ESI by using a commercially reasonable hash identification process that relies on the industry standard National Software Reference Library ("NSRL") NIST hash set list.
- 14. Only a single copy of a responsive DOCUMENT family shall be produced. Every reasonable effort shall be made to de-duplicate responsive ESI (based on MD5 or SHA-1 hash values at the document level) across custodians, so long as a field is populated identifying all custodians who possessed a copy of the DOCUMENT family, as well as all file or e-mail folder

paths where the DOCUMENT family was located. If the file or e-mail folder paths cannot be ascertained, you shall advise the Propounding Party.

- 15. If the volume of potentially responsive DOCUMENTS requires the use of search terms to reduce the number of DOCUMENTS to be reviewed, a proposed list of search terms shall be provided to the Propounding Party prior to review and production. Any usage of such search terms will be agreed by parties through negotiations in good faith.
- 16. Excel, PowerPoint, video, audio, and other non-readily imaged file types shall be produced in their native format, with an image placeholder indicating that the document was produced in native format. Native format means and refers to the form in which electronically stored information is ordinarily maintained on your electronic devices, together with all metadata (including, but not limited to, dates of creation and transmittal, author, recipients (to, cc, bcc), revisions, and file history).
- 17. Parent-child relationships (such as those associated between emails and attachments) will be preserved for all natively produced and hard copy DOCUMENTS, with child document produced consecutively after the parent DOCUMENT.
- 18. Hardcopy (or paper) DOCUMENTS will be scanned at 300 Dots Per Inch ("DPI") resolution in single-page TIFF Group 4 format (for black & white pages) or single-page JPEG format (for color pages), and will reflect, without visual degradation, the full and complete information contained on the original DOCUMENT.
- 19. Hardcopy DOCUMENTS will be scanned, capturing physical breaks or logically unitized.
- 20. All production DOCUMENT images will be produced at 300 DPI resolution in single-page TIFF Group 4 format (for black & white pages) or single-page JPEG format (for color pages).
- 21. Each page of an imaged DOCUMENT shall be electronically endorsed and named with the unique Bates Number of the page of DOCUMENT, followed by the extension ".TIF" (for black & white pages) or ".JPG" (for color pages). Native DOCUMENTS shall be

6

11

9

24

named with the original file extension and the Bates Number for the DOCUMENT, and any designation allowed under any Stipulated Protective Order.

- 22. OCR and/or extracted text files shall be produced using UTF-8 encoding and reflecting the full text that has been electronically extracted from the original files. These text files shall be named with the unique Bates Number of the first page of the corresponding DOCUMENT followed by the ".TXT" extension.
- 23. Non-English language characters will be preserved from the point of collection to production. The process of extracting text from original files and production of TXT files will be done in a manner that preserves non-English text, such as Chinese (Traditional or Simplified), Japanese, Korean, Cyrillic, Arabic, or other languages.
- 24. Productions shall be provided on an external hard drive, internet-based secure file transfer, or such other readily accessible computer or electronic media as the parties may hereafter agree upon.
- 25. All production media shall be encrypted, either via hardware-based encryption (e.g., a hard drive with a built-in keypad) or via software encryption (VeraCrypt, BitLocker, or Zip file encrypted in AES-256) using a strong password. Decryption passwords for production media shall be provided to receiving parties via a separate e-mail, sent apart from the media itself.
- 26. As used herein, the singular shall be read to encompass the plural, and the masculine to encompass the feminine, "and" as well as "or" shall be construed either disjunctively or conjunctively as necessary to bring within the scope of the Requests to Produce Documents all information which might otherwise be construed to be outside its scope; the words "each" and "any" shall be interpreted to mean "each and every."
- 27. These Requests for Production are deemed to be continuing so as to require the filing of supplemental responses and the production of additional information pursuant to FRCP, FRE and other applicable authority. You are required to produce to Propounding Party such

as they become available.
